Jeffrey Bruno, Ph.D. has created a comprehensive, well researched book (with over 900 citations). **Eat Light Feel Bright** is solid evidence-based book, backed by clearly explained scientific studies. He brings to light how these transformational microscopic organisms can help rebuild our health and restore our environment. **Eat Light Feel Bright** offers more than the most comprehensive and far-reaching research collection on microalgae. This book delivers a transformational journey on human health and nutrition, using microalgae as a way to gain a deeper understanding of the evolutionary basis of nutrition. Part I describes how microalgae helped to change our world and provide foundational nutrients, like amino acids and bioactive light-sensitive pigments. The reader will learn about heat-shock proteins and how blood heme and algae pigments share common qualities. Part II describes 12 areas of microalgae health research from anti-inflammatory and antioxidant effects to safety concerns. Part III highlights the use of microalgae for planetary medicine, helping to address global hunger and ecological restoration.
