Reviews

An exceptional ebook along with the typeface employed was intriguing to see. It really is simplistic but surprises within the fifty percent of the ebook. It is extremely difficult to leave it before concluding, once you begin to read the book.

How can universities make a sounder and more lasting contribution to better lives and better societies in a globalised world? From a Swedish perspective, this new book challenges current ideas about what higher education is for. It presents fifteen principles for future development that range from a discussion of the nature of knowledge to the responsibility of the university in the development of society. Universities must become better at allowing and encouraging students to develop independence of thought and action through self-formation, bildung, and personal growth rather than merely preparing them for a specific job, the books says, using a historical perspective to consider these issues. This book is written in Swedish: Vad bor en hogskola vara? De maste ocksa se till att studenter far utveckla styrka och sjalvstandighet i tanke och handling genom en tydligare fokus pa bildning och personlig vaxt och inte bara forbereda dem for de forsta aren i ett framtida jobb. Framtidens samhalle kommer att krava att alla medborgare far tillgang till hogre utbildning, ratt utformad, aterkommande genom hela livet.
