Although there is almost no debate about the simple existence of global governance, there are widespread academic discussions about how to understand the relations between the variety of involved actors and the dynamics they create amongst different issue areas within the global system. This paper discusses the questions if there actually is such a thing as global governance and if it can ever be effective. Therefore, I will first take a short look at some basic definitions, the involved actors and their possible roles within global governance arrangements before I examine different approaches towards the existence, functioning, effectiveness and limitations of global governance. The main idea in this context is to give a brief introduction to current issues, questions and solutions in the actual global governance debate. 16 pp. Englisch.
