Reviews

This kind of pdf is every little thing and taught me to looking forward and more. It is one of the most incredible book i have read. You wont truly feel monotony at whenever you want of your time (that's what catalogs are for about should you check with me).

SUPERVIVIENTES DE LA BIODIVERSIDAD

RUBES, 2012. Rústica. Book Condition: Nuevo. Dust Jacket Condition: Nuevo. 01. La biodiversidad es la realidad biológica que más nos fascina. Aparece como una fuerza de renovación vital frente al uniformismo, a la monotonía. La vida, que muestra toda su potencia y exuberancia creativa al diversificarse y generar más especies de las que podemos clasificar ejerce, a cambio, la tiranía de la extinción sobre sus criaturas. La biodiversidad no hace prisioneros. Es una dura ley que alimenta los árboles filogenéticos, pero que devora a individuos y especies. . Este libro no es una biografía de los seres más adaptables, ni una cronología de las devastaciones remotas. Es un manual ilustrativo de lo que significa sobrevivir en la biodiversidad. A pesar de los cataclismos. A pesar de la presión que el ser humano ejerce sobre el resto de los seres vivos. A pesar del comercio de especies, de la sobreexplotación de recursos naturales y de la polución. Un manual que describe la urgencia de preservar la riqueza biológica, so pena de tener que releerlo en los confines del Paraíso, quizá mientras aguardamos nuestra propia extinción. LIBRO.
